

This summer the Education Support Department of Centre for Innovation and Technology Transfer Management, Warsaw University of Technology will organize International Summer Schools of the Warsaw University of Technology for 1<sup>st</sup>, 2<sup>nd</sup> cycle or PhD students and we would like to invite your students to participate in this project.

All Summer Schools are **free of charge**. Participants who will take part in a mixed-learning form of summer school, will be granted a **scholarship** to reimburse travel, accommodation and food costs. All participants of Summer Schools will also get a credit of **5-7 ECTS**, depending on the course.

There are offered 5 different summer schools that are aimed at students who want to expand their knowledge in the field of:

- modern electrical engineering -> [International Summer School of the Faculty of Electrical Engineering](#), online, date: **3<sup>rd</sup> - 15<sup>th</sup> July 2023**,
- photovoltaics -> [International Summer School of the Faculty of Physics](#), hybrid form of learning: online + on-site, date: **26<sup>th</sup> June - 07<sup>th</sup> July 2023**,
- photonics -> [International Summer School of the Faculty of Physics](#), hybrid form of learning: online + on-site, date: **26<sup>th</sup> June - 07<sup>th</sup> July 2023**,
- modelling and improving processes in supply chains -> [International Summer School of the Faculty of Transport and Faculty of Mechanical and Industrial Engineering](#), hybrid form of learning: online + on-site, date: **26<sup>th</sup> June - 07<sup>th</sup> July 2023**,
- business, logistics and production processes in the enterprise -> [International Summer School of the Faculty of Management](#), hybrid form of learning: online + on-site, date: **3<sup>rd</sup> - 14<sup>th</sup> July 2023**.
