

Together, we're changing the World!

Imagine being surrounded by a team of intelligent, driven and passionate innovators, all working towards the same goal using the latest technology and tools, to create ground breaking solutions that leave our world in a better place than we found it

Thermal & CFD Engineer

Location: Oradea

Your Role:

- ✓ Perform analytical calculations and numerical simulations, using commercial software such as ANSYS CFX, FLUENT and CREO Simulate, but internally developed software as well, with the goal of designing and optimizing the cooling circuits of our electrical machines, mainly alternators;
- ✓ Perform experimental validation of numerical simulations;
- ✓ Collaborate with the mechanical and electrical departments to make sure that the input data and the deliverables quality are accurate.

Your Opportunities:

- ✓ Continuous professional and personal development within a highly skilled and engaged research team;
- ✓ Technical trainings provided for a successful start;
- ✓ Dealing with challenging tasks in an international context;
- ✓ Pleasant work environment, being part of a young team.

Your Profile:

- ✓ Bachelor Degree in Mechanical Engineering / Thermal Systems and Equipment; Master is an advantage; PhD is a serious advantage;
- ✓ Excellent thermal transfer and fluid dynamics knowledge;
- ✓ Analytical thinking and attention to details;
- ✓ Experienced in using 3D design tools; CREO Parametric knowledge is an advantage;
- ✓ Experienced in working with thermal and CFD simulation software; experience in working with ANSYS CFX and FLUENT is a serious advantage;
- ✓ Fluency in English is mandatory; good French language skills are also required; autonomy in French is required within one year (you will work directly with our internal French customers);
- ✓ Willing to travel to France for training and project based;
- ✓ Customer oriented;
- ✓ Ability to work in remote virtual teams.

The Organization: Nidec Leroy Somer Engineering & Development Team

Leroy-Somer of France, former part of Emerson, has joined the Nidec family, with the purpose of creating technological products that innovates our future. Nidec is a world-leading motor company, founded in 1973, with over 230 companies and 110,000 employees worldwide. As a company that works for everything that spins and moves and which combines technology with engineering, our business portfolio spans a wide range of industries which we encounter in our everyday life, including IT, home electronics, industrial equipment, automobiles, airplanes, ships, robots, and electricity generation. We are characterized by our passion, enthusiasm and tenacity, which helps us provide solutions and one-of-a-kind products. Together with us, you can build the future of technology. One vision, one Nidec. <https://www.facebook.com/leroysover.nidec/en/>
